EXPERIENCE

SilentPush Inc. - Contractor // 2023 Jan. - present

Senior Font-End Developer - full time

- Leveraging Redux, React and Websocket technology, engineering a powerful solution to counter the ever-expanding online threats confronting organizations
- Working closely with the most brilliant minds in the realms of cybersecurity and threat intelligence, in this Washington-based, U.S. startup enterprise
- Extensively revamped the user interface on my first year on the flagship app, resulting in many new customers subscribing to our product

FreshConstruct - Contractor // 2022 Jan. - present

Senior Font-End Developer - temporary project based

- Tackling the wide array of projects in this dynamic UK-based company which involves a diverse usage of technologies - Umbraco, React, Next.js, Angular
- I actively contributed to the development of a live event spectator aggregation software known as ThatsTheTicket, which made its debut in Australia.
- Working together with market leading partners like McArthurGlen Group

Mentorcam Inc. - Contractor // 2022 Jun. - 2022 Sep.

Senior Font-End Developer - full time

- Laying down the groundwork for this dynamically evolving U.S. based YCombinator winner startup company, and engineering the fundamental features of their product - React, Next.js, Firebase

SmartX Solutions - Vienna Insurance Group // 2021 Jul. - 2022 Sep.

Senior Font-End Developer

- Developing state of the art software solutions for the health insurance sector - Angular 12+, Typescript
- Overviewing projects their whole life cycle, from the drawing boards throughout the testing phases

Oracle Corporation // 2019 Nov. - 2021 Jun.

Senior Software Engineer

- Developing cloud-based enterprise applications with state of the art web technologies and methodologies - OJET, Typescript
- Actively participate in the planning events and processes. (SAFe Agile)
- Working together with an international team across multiple continents
